25X1 31. [ ] FBIS, called 25X1  
to inform us that he had received a call from Duane Bornes, Congressional  
Research Service, Library of Congress, who said a Senator's office had  
inquired about a report in the Pravda newspaper about the relationship 25X1  
between President Carter's human rights statements and arms control.  
[ ] said that when pressed Mr. Bornes identified Senator Edward M.  
Kennedy's (D., Mass.) office as the one making the request. [ ]  
said he referred Mr. Bornes to certain pages in one of the FBIS Daily Reports.

25X1 32. (Internal Use Only - PLC) LIAISON Called Hilda Schreiber,  
OMB, and discussed OMB's request for comments on the testimony of  
Donald Elisburg, Department of Labor, concerning legislation to amend  
the Age Discrimination Act to raise the mandatory age from 65 to 70 or  
72, to be given on 23 June before the House Education and Labor  
Subcommittee on Equal Opportunities. She explained that Agency comments  
were not necessary since the testimony concerns only the private sector.  
Further, she noted that the Civil Service Commission will be testifying  
later on U.S. Government retirement programs and will address the  
concerned agencies such as ours that require lower mandatory age  
retirements for effective management. [ ] DD/Pers, was 25X1  
advised.

25X1 33. (Confidential - PLC) LIAISON Called Gus Edwards,  
Administrative Assistant to Representative Paul S. Trible (R., Va.), and  
informed him that he may respond to the constituent who inquired as to  
the possible surplusage of a tract at a training site in Mr. Trible's  
district as follows: "The commanding officer has advised that there is  
no available surplus land. This tract is being used infrequently at this  
time; however, a possible increase in its use is contemplated." He 25X1  
said this was completely satisfactory.
